The new scan job is placed at the top of the list. That's it, you're done. You may now close this browser tab.

The screenshot shows the Qualys Cloud Platform interface. The top navigation bar includes 'Dashboard', 'Vulnerabilities', 'Prioritization', 'Scans', 'Reports', 'Remediation', 'Assets', 'KnowledgeBase', and 'Users'. The 'Scans' section is active, showing a table of vulnerability scans. The table has columns for Title, Targets, User, Reference, Date, and Status. The first row, 'On Demand Scan', is highlighted in blue and has a status of 'Queued'. The other rows are 'Finished'.

Title	Targets	User	Reference	Date	Status
